

Lash Aftercare

- **First 24 hours after service** – Do not wash eyes, shower, cry, swim or spa (sauna, etc.). Any of these actions will negatively impact the integrity of the adhesive resulting in undesirable lashes.
 - Avoid the use of eyelash curlers & mascara.
 - Do not rub your eyes aggressively.
 - *Oil based product are not recommended.*
- Avoid powder eye shadow, using cream or liquid shadow is preferred. Powder eye shadow usually falls into the lash line and is extremely difficult to remove without damaging the lashes.
- Wash your face separately OUT of the shower. Do not allow the water pressure from the shower to directly hit your lashes.
 - Be very careful and gentle with your lashes!
- Schedule a fill in as needed. Call 904-262-4116.

Thank you and Enjoy!
